### ***Strategy:***

BRMS has successfully grown into a niche brokerage by focusing on reputation. Boldt Risk Management Solutions has established a respected presence among its target clients as a valuable resource and service innovator with wide access to the applicable insurance markets. Competitors, underwriters, Intermediaries and carriers have come to recognize BRMS as an industry expert with the highest level of integrity. Our organizational mission and values are manifest by generously contributing creative energy, time, effort and other resources in service of the long-term care industry, social/human service providers and faith-based organizations.

Organizations benefit from the BRMS strategic approach to insurance. We provide a wide range of options for transferring risk: Commercial Insurance, High-Deductible Insurance, Captives, and Self Insurance. A client will always be presented with the best available quote from an “A” rated carrier along with other options that might be appropriate. Riskier options presented will be accompanied by a thorough explanation of the risks involved.
